

Environmental Policy Statement

Your Asbestos Consultant provides a wide range of Asbestos consultancy services across a wide range of business sectors.

We recognise our responsibilities towards protecting the environment and will address our activities and our environmental impacts with a view to compliance with legislation, regulations and external guidance which may be applicable.

Where environmental impact does occur, most notably in transport, **Your Asbestos Consultant** is committed to bringing about continuous improvement in limiting its adverse environmental impact. **Your Asbestos Consultant** environmental policy includes:

- Promotion of energy awareness within its workforce through training.
- Minimizing waste by regularly evaluating operations to ensure they are as efficient as possible;
- Requiring our office to securely recycle all paper waste and other consumables;
- Encouraging the use of public transport where this is practicable;
- Ensuring that staff are appropriately trained and kept up-to-date with relevant legislation wherever they work; and
- Promoting environmental best practice following the principles of sustainable development.
- Regular participation in UK-based carbon offset programs.
